## About the Center

The UTA Center for Research on Teaching and Learning Excellence (CRTLE) engages faculty, graduate teaching assistants, and community partners in research and innovative, high impact practices to enhance teaching and learning (AAC&U, 2008). The Center's mission embraces rigorous, evidence-based scholarship on teaching to promote high levels of reasoning and meaningful learning among students. The CRTLE brings together scholars from all UTA disciplines to work on initiatives that integrate pedagogically sound practices, digital and innovative technologies, community engagement, and professional development. CRTLE supports all faculty and teaching assistants to achieve teaching excellence, advancing their students' creativity, critical thinking, and logical reasoning through active inquiry-based, digital, and real-world learning experiences.

*A new CRTLE website is currently in development and will be available soon!*
