Promoting Accessibility and Learning Equity

Did you know?

How to help all students during an emergency evacuation?

During emergency evacuations it is common knowledge that you do not use the elevator. If you have a student who has a physical disability and uses the elevator, you must have an alternative emergency exit plan for them. You should be prepared and make this plan as soon as possible in case of an emergency. For more information or help on how to make this emergency evacuation plan, use this guide [here](#) by the National Fire Protection Association to build your evacuation plan.
