

The Environmental Health and Safety Office (EH&S) is the University of Texas at Arlington (UTA) designated shipper of biologicals with dry ice. Researchers are responsible for packing the shipment and contacting EH&S to inspect/pick up the shipment when container is ready for shipment but still open. EH&S performs all the shipping of biological materials with dry ice via FedEx using eShipGlobal.

- Domestic shipments are handled Monday-Thursday, international shipments on Monday-Tuesday. Submit domestic shipment request at least two days in advance. For International shipment, a notice of one week is required.
- The Principal Investigator (PI) provides proper packaging materials and shipping container/Styrofoam box.

Proper packaging of biological materials includes five basic requirements:

1. Watertight primary receptacle(s)
 2. Watertight secondary receptacle
 3. Absorbent material (between the primary and secondary receptacles)
 4. Sturdy outer container and Styrofoam box inside the outer container
 5. If reusing outer container/Styrofoam box, they must be free of any hazardous materials and all old labels and markings must be removed.
- Contact Chemistry Stockroom/CPB 110 at 817-271-3712 to acquire dry ice for the shipment.
 - When all materials for shipment are ready, **EH&S will check the shipment before container is closed.**

Please contact EH&S at 817-272-2185 if you need assistance in preparing the material(s) for shipment, or if you have any questions regarding the shipment of dangerous goods.
