

BLUEBONNET RESERVATION POLICIES DURING CONSTRUCTION

UPDATED 2026

What is changing?

Starting August 13, 2026, only Bluebonnet North and Center will be available for events. Organizations can request one or both sections of Bluebonnet.

- The Bluebonnet Ballroom will maintain a **banquet-style only**.
 - One Section: seats 144 (min required 80)
 - Both Sections: seats 288 (min required 150)
- Organizations may only choose from fixed floor plans.
- Basic technical equipment can be requested. Optional add-ons may incur additional fees.

Bluebonnet Restrictions

See the full policy here:
<https://www.uta.edu/campus-ops/student-centers/events>

1. Customizations

- Floorplans cannot be changed or customized. Only permitted add-ons will be considered during planning.
- The Stage cannot be moved. A stage is included in the floor plan.
- Tables cannot be removed. Fees will apply if tables are moved and not returned.

2. Foyer

- Foyer furniture and lounge spaces cannot be moved or altered for any reason. Moving or altering furniture may result in additional fees.
- A maximum of 1 table and 2 chairs is permitted in the Foyer for event check-in between Bluebonnet Center/North.

3. Catering

- Restrictions may apply. Please reach out to them by calling **817-272- 2304** or visit their website <https://uta.catertrax.com/>.

4. Building Hours

- Building hours will operate normally. See current hours here:
<https://www.uta.edu/campus-ops/student-centers/hours>

5. Public Noise Consideration

- Bluebonnet South, Rosebud, and the Foyer are open to the student public as a lounge space. These spaces will draw a high volume of foot traffic and may have a minor noise effect on Bluebonnet events.
- Concerts and amplified bands will not be supported during this time. Acoustic bands or solo artists are permitted.

6. Technical Equipment Limitations

- Equipment may be subject to limitations during this time, including but not limited to the following:
 - When using a Half Banquet floor plan, the maximum microphones allowed is 4 wireless mics.
 - Hybrid components must be outgoing only (not interactive).
