What is an internship in Criminology and Criminal Justice (CRCJ)?

A typical CRCJ internship is designed to allow students to gain experience working with criminal justice-related organizations. An internship is an opportunity for a CRCJ student to receive course credit for field work. The internship director facilitates your assignment to an agency or organization where you will gain practical experience. You must complete 112 hours in the field to earn three credit hours and 224 hours in the field to earn six credit hours. Students interested in earning six hours of course credit may complete all hours in one semester or separate two internships over two semesters.

What are the criteria to apply?

To be eligible to apply for participation in the internship program, students must meet the following requirements:

- Be a UTA CRCJ major with junior or senior status (60-90+ hours completed) in the semester in which the student is enrolled in the course.
- Have completed at least 12 credit hours of CRCJ courses at UTA and 15 credit hours of CRCJ courses overall.
- UTA CRCJ majors may be required to have a certain specified GPA with a sponsoring internship partner.
