

The University of Texas at Arlington has been a staple in the Fort Worth community for decades. With our Fort Worth Center, our Research Institute, our many civic and corporate partnerships, and our strong alumni base, UTA has established a legacy of educational and economic support in west Texas and beyond.

BY THE NUMBERS

23,424 UTA alumni live in Fort Worth

4,961 students hail from Fort Worth

4,327 students transferred from Tarrant County College

376 freshmen graduated from Fort Worth ISD high schools

192 students enrolled in at least one class at UTA Fort Worth

(Fall 2026 data provided by University Analytics)

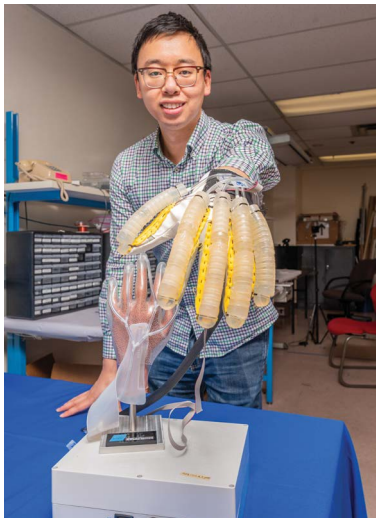

UTA FORT WORTH CENTER

Located downtown since 2007, the UTA Fort Worth Center serves working professionals by connecting education with careers, offering high-quality accelerated academic programs that meet the needs of our students and the 21st-century workforce.

In 2023, the UTA Institute of Urban Studies relocated to the UTA Fort Worth Center. Originally established in 1967 by an act of the Texas Legislature, the Institute conducts research and provides technical assistance to city and county governments, governmental agencies, and nonprofit organizations.

UT ARLINGTON RESEARCH INSTITUTE

In 1986, UTARI was established in east Fort Worth with a gift of land from a developer and a gift of $10 million from the Fort Worth Chamber Foundation. Today, the 48,000-square-foot facility conducts $16 million annually in research focused on advanced controls and sensors, airborne computing networks, automation and intelligent systems, bio-signal processing, biomedical technologies, and predictive performance.

TARRANT TO AND THROUGH (T3)

The UTA and T3 partnership provides Fort Worth ISD high school students with personalized guidance, programming, and even funding opportunities to help them achieve a college education. UTA enrolls the largest cohort of first-time students among the T3 four-year university partner institutions.

HEALTH CARE PIPELINE

As the largest producer of baccalaureate-educated nurses in Texas, UTA's College of Nursing and Health Innovation has connections to more than 180 clinical sites, including JPS Health Network, Cook Children's Medical Center, Texas Health Harris Methodist Hospital, Baylor Scott & White, All Saints Medical Center, and ACH Child and Family Services. Thanks to these partnerships, more than 1,000 nursing and social work students complete clinical rotations and field work annually in Fort Worth.

UTA, a top supplier of talent to companies and communities across Texas, is pleased to announce that it is establishing a new campus, UTA West, at the western gateway of Fort Worth in Parker County. **UTA West** will provide greater access to high-quality, affordable higher education that will equip students with the skills to thrive in the region's growing workforce.
