

REGISTRATION TIMETABLE SPRING 2025

Student Group	Minimum Hours Passed	Registration Begins			
PRIORITY ENROLLMENT PERIOD					
Continuing Graduate, Graduating Seniors, Honors College, McNair Scholars, Athletes, MavsRise	No Minimum	Nov. 4, 2024			
	90+ Hours	Nov. 6, 2024			
Arlington within a 12-month period.	60+ Hours	Nov. 6, 2024			
	30+ Hours	Nov. 8, 2024			
	l or more Hours	Nov. 8, 2024			
OPEN ENROLLMENT PERIOD					
New Students and former students (Undergraduate students who have not been enrolled for more than I year or Graduate students who have not been enrolled for more than I long term at UT Arlington), and any continuing students who did not register in the priority enrollment period.	No Minimum	Nov. 18, 2024			

ADVISING PRIOR TO REGISTRATION

All University Studies (UNIS) students must be advised by a UNIS academic advisor before registration *each semester*.

- Students can check for their advising holds and other holds in the Student Center of <u>MyMav.</u> The advising hold must be released by your academic advisor before you can register.
- Typically, the advising period for the Spring term opens in October, and for the Summer and Fall terms in March. *Plan to meet with your advisor early. The later you wait, the fewer course options are available.

PICKING CLASSES

Students will be provided with a **MAP** showing their academic progress and **a list of course options** (**The last section of this page**) to help them to pick classes that match degree requirements. Every University Studies student will have a different MAP depending on their primary and secondary

content areas and remaining credits. In your advising meeting you will be instructed on how to use these documents.

REGISTRATION INSTRUCTIONS

The system will not allow students to enroll into classes/sessions if they do not meet the requirements below:

- X Prerequisites (a specific course or test score is needed prior to taking this one)
- X Courses only designated for Accelerated Online (AO) or Nursing AO students (these courses are reserved for a particular cohort of students in these programs, and are not open to all students)
- X **Department Consent** (The department is reserving seats in this class for particular majors, cohorts, student populations. You may contact the advisor in the department offering the class to ask for permission to enroll. It is at their discretion. The University Studies department cannot provide students with permission to enroll in department restricted classes.

Repeated Courses Policy: Students may repeat any course, unless restricted by specific colleges or schools, provided their grade from a previous attempt is below a "C". To help students avoid repeating courses, the system will display a notification on MyMav when registering for the same class. However, if you choose a cross-listed class, the system will not provide a notification. In such cases, you can verify by checking the "Combined Section" under the "Search for Classes" feature.

Follow the registration steps below to identify how to search for classes, view course information such as prerequisites or department restrictions, and add courses to your schedule.

Step 2:

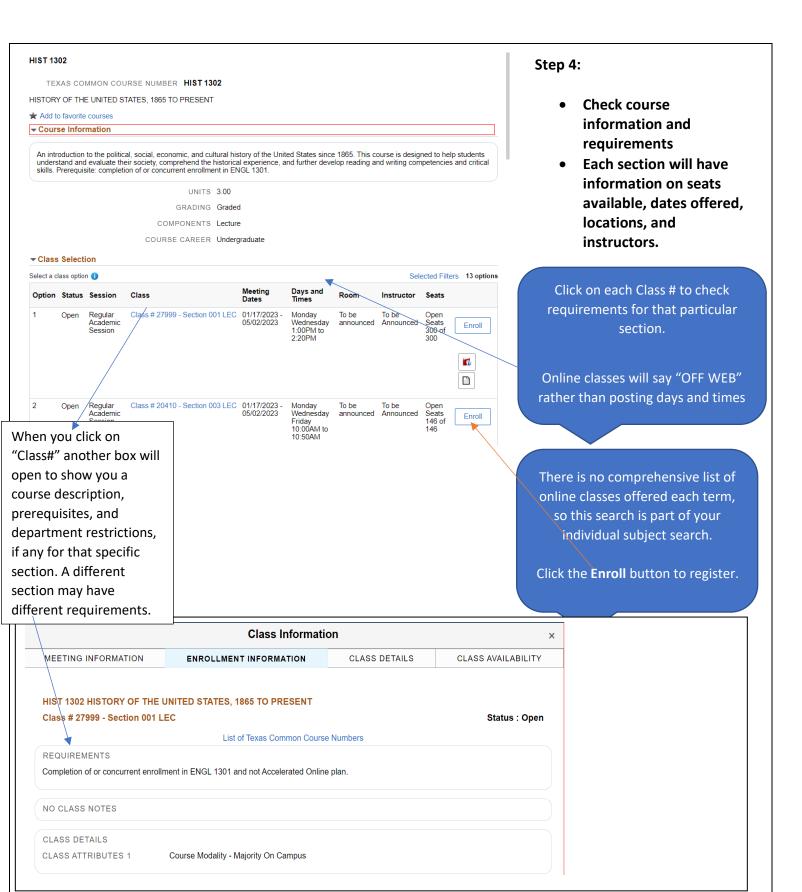

- Choose "Manage Classes"
- Choose "Class search and enroll."
- Pick the term you would like to enroll.

(For EX: Spring 2025)

Step 3:

- "Search for classes" by typing the subject in the box and hit enter (if you have a specific course in mind type in the course number as well)
- For Example: Hist 1302 will show 13 options available.

FILTERING OPTIONS

If you would like to filter your search, you have the option to do so when you have typed in the subject you are searching and hit enter. Once that is done, you will see filters on the left-hand side of the results page.

Filter for different parts of the semester.

Filter for Intersession

Filter for Days and Times

LIST OF COURSE OPTIONS

Listed below are course options for Spring 2025 that will apply towards the University Studies degree in either Primary Content, Secondary Content, or Elective areas. This list is *only a guide* and is not meant to include every course that a University Studies student could potentially take.

Some tips for using this list:

- 1) This list includes courses with no prerequisites. If you've met the prerequisites for courses that are not on this list, and there are no other restrictions on the course, you can choose from those too! For example, maybe you took PSYC 1315 for the Social/Behavioral Sciences core. This list only shows Psychology courses that do not have prerequisites. When you look at the schedule there may be other Psychology courses open that have PSYC 1315 as a prerequisite. Since you've completed that prerequisite, you can choose from those too.
- 2) Some courses have multiple sections but a few of those sections are reserved for a specific student population or cohort. If you are not in that population/cohort, you cannot take that section of the class. Pick another section that is *open to all* students. The closer we get to classes starting the sections open to all students will fill, and only restricted sections will be left on the list so choose early.

- 3) Departments can decide to restrict courses to certain populations at any time. If you're searching for a course on this list and it now has a department restriction or new prerequisite, you must abide by that department policy and move on to a course that is open to all students.
- 4) Department permission to register for a course: You must contact the department/school advisor and request permission to enroll in their course. If approved, that department will register you.
- 5) Some courses are cross listed. This means that the same course is being offered by different departments. You'll see this indicated by "[subject] or [subject]" on this list. This means that you can register for the course under either subject, but you can only take it once and you are only getting credit for one course.

Classes fill quickly! The earlier you choose your classes and build your schedule the easier it will be to pull things together in a way that helps you stay motivated, plan for courses that are meaningful to you, and have them work well with your timeline, goals, and other obligations!

Winter Intersession options

*Winter Intersession is a part of the spring schedule and counts towards spring 2025 enrollment hours.

ARCH 2300 – Masterworks of Western Architecture
MUSI 1300 – Music Appreciation
MANA 3320 – Human Resource Management
BCOM 3390 –Effective Business Communication
